

Henshaw Inflatables

World leaders in inflatable tube technology

The new MkII fully Inflatable Sea Pool provides a safe and secure area for swimmers.

The 1.5mm mesh netting prevents all types of Jelly Fish including the deadly "Box Jelly Fish" from entering the swimming area. The newly designed Inflatable support is made in a flat style drop stitch Hypalon fabric and supports the weight of several persons. It is extremely rigid when inflated and does not collapse when in strong wind or tidal conditions.

SEA POOL

- ✓ Keeps Children safe
- ✓ Keeps swimming area free of the deadly "Box Jelly Fish" and all manner of floating objects
- ✓ Deflates and packs down to a compact package for stowing on board
- ✓ Extremely rigid Inflatable beams with a width of 50cms, which remain rigid in high wind and tidal conditions.
- ✓ Net is made from a rot proof polyester weave with a mesh size of 1.5mm
- ✓ Built to order to any size, the beams are made in "double walled drop stitch Hypalon fabric" and the top has a non slip surface.
- ✓ Optional stainless steel ladder and GRP saddle available.
- ✓ Extremely buoyant, and the beams support several swimmers.
- ✓ Optional extended sun lounging area can be incorporated in the design.
